A PSALM OF LIFE. What the heart of one egg said to another.

BY BROADFELLOW. Tell me not in mournful numbers, Life is but an empty dream! Chickens in their oval alumbers Areby no means what they seem.

Life is real! Life is carnest!
And this shell is not its pen;
Egg thou art, in egg remainest,
Was not spoken of the ben!

Not enjoyment, and not sorrow, is our destined and or way; But to scratch that each to-mor Find us fatter than to-day. Art is long and time is fleeting,

Be our bills, then, sharpened well;

Not like muffled drums be beating

On the inside of the shell.

In the world's broad field of battle, In the great barn-yard of lift; Be not like the lazy cattle. Be a roosier in the strife!

Trust no hawk, however pleasant,
And yet never by it said,
When the birds of prev were present,
You were skulking in the shed.

Lives of old cocks all remird us, We can make our lives sublime; And when roasted leave behind us Bird tracks on the sands of time.

Bird tracks, that perhaps another Chicken drooping in the rain, A forlorn and hen-pecked brother, When he sees shall crow again i

Let us then be after hatching, with a heart for every fate, Ever crowing, ever scratching, Learn to cackle and to prate.

A Good Horse,-The New York Spirit of the Times gives the following characteristics of a good horse: His eyes, even when seen in the stable, are perfectly clear and transparent, and the pupils or apples of the eys are alike in color and size. 2. On being nipped in the gullet; he will utter a sound like that from a bellows. If, on the contrary, he should give vent to a dry, husky short cough, beware of him. His wind is unscund. 3. His legs are smoth and " clean." If you find bunches or puffs, or a difference in size, though he may not be lame, disease lurks there. 4. If broad and full between the eyes, he is susceptible of being trained to almost anything. 5. If some white or part-colored, he is docile and gentle.

DIARMERA.—The following receipt for 25 bbls do do

water; let it remain one hour and drink the tea. If you cannot get boiling water, chew and swallow the juice. This is the most valuable and efficient remedy. It rarely fails to give immediate relieg and chew and swallow the juice. This is the most valuable and efficient remedy. It rarely fails to give immediate relieg and performs a permanent cure."

The period styled dog-days embraces the six weeks between July 25th and September 5th, during which the constellation Sirius rises and sets with the sun. This constellation was supposed by the ancients to exercise a very malignant influence, and to its agency was formerly attributed much of the sickness which usually prevails at this season, when unripe unwholesome vegetables are most in

VALUE OF CLOVER HAY .- H. Capron of Illinois, who has been largely concerned worth of milk in a single year,) inform us that he made accurate experiments to test the comparative value of timothy and These experiments extended through a period of two years, were ac ompanied with accurate weighing and measuring, and the food was changed from timothy to clover, and vice versa once of month, and the result were that the clover hay uniformly yielded ten per cent. more milk than the timothy. It will be observed that this was not a single experiment but a series of experiments extending for a long period. It is also proper to state that the clover was well cured.—Country.

A man named A. Bedbug in ar djoining county intends patitioning the Legislature to change his name. He say that his intended, whose name is Oliva objects to the name, and is unwilling to be called O. Bedbug, or her husband A Bed-bug-besides it would be awful to have a bed full of little bedbugs. Let it be changed

The nullifiers of the South, wh are bound to make Kansas a Slave State at all hazards, occasionally receive a thrust at home which completly disconcerts them The more cool headed and sensible among them begin to see and to acknowledge the abourdity and folly of the attempt to make Kansas a Slave State, and they are be ginning to place a proper estimate upon the bogus patriotism of those who prefe a dissolution of the Union to the freedom of Kansas. Hear the South Carolinian It is because the country in Kansas is not under Providence doomed to slave labor, and our people, though ever ready to fight for the principle, found that in this matter of Kansas we were fighting against the winds of heaven and the pawer of the elements, and that we had made a wrong issuc. If the people of the South had really believed that our fate depended or Kansas, we would succeeded in taking the country. The Gazette says: "We have yielded post after post until the coils of black abolition, like the deadly embrace of the boa, is felt on all sides of us." We disagree with our friend of the Gaze to the outposts of Kansas, which would de us no service because they are untenable by us-they are not upon soil that we car claim truly as southern soil—soil adopted for southern labor. Why should we ex-pend our blood and treasure on an issue where our immediate interest are not con-

Administrator's Notice. NOTICE is hereby given that the undersigned has obtained from the Probate Court of Atchison County, K. T., letters of administion upon the estate of Spercer P. Wade, dec'd, dated April 14, A. D., 1857.

All persons having claims against said estate are required to present them for allowances properly authenticated within one year from the date of said letters or they may be preclaim.

AYER'S

Are curing the Sick to an extent never before known of any Medicine.

INVALIDS, READ AND JUDGE FOR YOURSELVES. IULES HAUEL, Ess., the well known perfumer, of Chestmut Street, Philiadelphia, whose choice products are found at almost every tollet, says:

"I am happy to say of your Cavalarric Frila, that I have found them a better family medicine, for common use, than any other within my knowledge. Many of my fittings have realized marked benefits from them, and coincide with me in believing that they possess extraordinary virtues for driving out diseases and curing the sick. They are not only effectual, but safe and pleasant to be taken—qualities which must make them valued by the public, shen they are known."

Phe venerable Chancellor WARDLAW writes from Baltimore, 15th April, 1854:

"Dn. J. C. Avan.—Sir: I have taken your Fills with great benefit, for the listlessness, languor, fose of apporting and Billious headache, which has of late years ovarukes me in the spring. A few doses of your Pills cured me. I have used your Cherry Pectoral many years in my family for coughs and coids with unfailing success. You make medic frees which cave; and I feel it a pleasante to commend you for the good you have done and are doing."

JOHN F. BEATTY, Ess., Sec. of the Penn. Railroad Ca.

***Pu. R. R. Office, Philodophile, Doc. 12, 1883.

***Gir: I take pleasure in adding my testimony to the efficacy of your medicines, having derived very material benefit from the use of both your Pectoral and Cutharti Pills. I am never without them in my family, nor shall ever consent to be, while my means will procure them." The widely renowned S. S. STEVENS, M. D., of Wen worth, N. H., writes:

ment of disease."

"Acton, Mc., Nov. 25, 1833.

"Dr. J. C. Ayra — Dear Sir: I have been afflicted from my birth with scrofula in its worst form, and now, after its way seem trial, and an untold of amount of suffecting have been completely cured in a few weeks by your Fills With what feelings of rejoicing I write can only be imagined when you realize what I have suffered, and how

menced a healthy growth; all of which makes me feel already a new persen.

"Hoping this statement may be the means of conveying information that shall do good to others, I am, with every sentiment of gratitude, Yours, &c.,

"I have known the above asmed Maria Ricker."

MARIA RICKER."

"I have known the above asmed Maria Ricker from her childhood, and her statement is strictly true.

Overneer of the Portamouth Manufacturing Co.,

Carr. JOEL PRATT, of the ship Marion, writes from Boston, Soth April; 1854:

"Your Fills have cured me from a hillows attack which arose from derangement of the Liver, which had become very serious. I had failed of any teller by my Physician, and from every remedy I could try; but a few doses of your Fills have completely restored me to health. I have given them to my children for worms, with the best effects. They were promptly cured. I recommended them to a friend for coativeness, which had toubled him for months; he told me in a few days they had cured him. You make the best medicine in the world; and I am free to say so."

You make the best medicine in the world; and I am free to say so."

Read this from the distinguished Solicitor of the Supreme Court, whose brilliant abilities have made him well known, not only in this but the neighboring States.

"Sir: I have great satisfaction in assuring you that myself and family have been very much benefited by your medicines. My wife was cured, two years since, of a severe and dangerous cough, by your Chenny Perconat, and since then has enjoyed perfect health. My children have several times been cured from attacks of the Influenza and Croup by it. It is an invaluable remedy for these complaints. Your Carnavire Pills have entirely cured me from a dyspepsia and convenience, which has grown upon me fav some years,—indeed, this cure is much more important, from the fact that I had failed to get relief from the best Physicians which this section of the country affords, and from any of the numerous remedies I had taken.

"You seem to us, Doctor, like a providential blessing to our family, and you may well suppose we are not unmindful of it. Your respectfully.

LEAVITT THAXTER."

"Sente Chember, Ohie, Spril 5th, 1854.

"Dr. J. C. Aven — Honored Sir: 1 have made a morough trial of the Catharatic Pills, left me by your agent, and have been cured by them of the dradful Rheumatism under which he found me suffering. The first dose relieved me, and a few subsequent doses have entirely removed the disease. I feel in better health now than for some years before, which I attribute entirely to the effects of your Catharatic Pills Yours with great respect, LUCIUS B. METCALF."

The above are all from persons who are publicly know where they reside, and who would not make these stat ments without a thorough conviction that they were tru Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Hass. AND SOLD BY

S. DICKSON.

Billings' Patent Fire and Water

Proof Roofing.

This most valuable roofing material was patented by Horace Billings of Beardstown, Illinois, in 1850; since which time it has been subjected to the most rigid tests for durability. As a roofing material it has also proved to be invaluable and enduring. The elegance of finish it imparts to a building, the ubiquity of the materials of which it is composed, and the fact that it combines the valuable qualities of nearly every other kind of roofing, being a non-conductor of heat, thereby yielding a degree of comfort in summer to the buildings covered with it, afforded by no ordinary material; and imparting no prejudicial quality whatever to rain water, but leaving it pure, and suitable for culniary purposes; has gained for it a celebrity, equalled by no other invention of the age, in the same length of time. For the proof of which, the subscribers would invite the attention of all interested, to testimonials in their possession.

For sale by PETIFISH, SHORT & CO., Atchison, K. T., who have purchased the right of all this Territory, north of the Kansas river, except Domphan county.

July 25-57,-tf. Combination Patent Portable Upright

SAW MILL In presenting to the public the claims of this machinery, we will state that its production is the result of the combined efforts of several of the most practical machinists and experienced saw-mill men in the country.

enced saw-mill men in the country.

During the last few years we have examined many new inventions and appliances in this connection, and have consulted with several thousand mechanics, fully experienced in the use of machinery for the manufacture of lumber. During the last year we have sold and shipped to various parts of this continent nearly one hundred steam mills, the results of which have afforded us a large amount of practical information, as to the difficulties to be overcome, the defects to be guarded against, and the objects to be obtained in machinery of this character.

haracter.

The Mill we now offer does not claim its su The Mill we now offer does not claim its su-periority from any single improvement or pat-ent which it may embrace, but as a combina-tion of all the most valuable improvements which could be included with a single machine, added to which are several new appliances lately patented, and others for which patents have been applied for. It has been thorough-ly and practically tested, and has been examin-ed by a large number of well-known scientific and experienced mechanics, whose certificates and experienced mechanics, whose certificates we shall soon publish, all of whom pronounce it more simple in its construction, more dura-ble and more efficient in its operations than any mill ever before produced.

THE MOTIVE POWER.

The engine and boiler which have been plan-neil and constructed for driving the "Combina-tion Mill," are so compact and substantial and so easily managed that almost every extensive farmer or planter would find them as convefarmer or planter would find them as convenient and valuable for the farm or plantation as a span of horses or a yoke of oxen. No one need be deterred from the possessor of this motive power, by apprehensions of difficulty in running or taking sare of it, for it is so simplified as to be within the comprehension of any judicious person, who will note the instructions always furnished with it.

The engine is nine feet long, has an eight inch cylinder, eighteen inch stroke, with feed pump attached to and operated by the engine. The driving pully, which also serves for a balance wheel, is five feet in diameter and ten inch face.

face.
The boiler is of locomotive construction, 10

The boiler is of locomotive construction, to feet long, containing 44 tubes, 21 inches in di-ameter. The fire box 36 inches long and 28 inches wide; smoke pipes 18 inches in diame-ter and 30 feet long. The engine and boiler which we usually fur-uishmay be rated at fourteen horse power, which is sufficient to drive the Mill, together with a simple will a small wrist

which is sufficient to drive the Mill, together with a circular saw, shingle mill, a small grist mill, or other machinery of a similar character. As surplus power is always of great advantage, this is the power we always furnish with the PRICES:

We furnish these mills and powers as deg cribed above, including all the screws, bolts, beltings, grate bars, saw, pump, wrenches, crowbars, and everything necessary to be used in or about the mill in running, excepting the two long bed pieces and the wood work of the carriage, which can easily be made anywhere, the whole put up and boxed, and delivered to this city, on board the desired transportation line, for \$1650, with the addition from New York, say \$125.

Toom New Lork, say \$123.

To parties desiring larger power, we can furnish an engine and boiler of eighteen horse power, constructed in the same style as the above, with a mill containing an eight foot saw, and other part corresponding, for \$2000.

The above are our lowest cash terms, payable on delivery in the city. ble on delivery in the city.

POTABILITY AND FREIGHTAGE. The mill and power as described above, all omplete, weighs five tons, as follows:

The whole establishment, with four or five yoke of oxen, either upon carts, wagons or trucks, can be easily moved at the rate of from 15 to 20 miles per day. The entire machinery can be taken apart, and put together again in a few hours time. Thus the necessity of moving the logs a long distance to the mill, is entirely obviated, as it is much cheaper to move the mill to the logs. As it will be perceived, there is no mason work required, and no building, unless the parties choose to erect a rough shed to protect the operators from the weather.

HOW MUCH IT WILL DO. The speed of this Mill is about three

Be sure and get the genuine, which has my signature on each box. This remedy may be had by addressing J. S. SHEPPARD, West Fourth street, Cincinnati, and enclosing \$1 and the remedy will be sent by return mail.

N. B.—Ladies that are pregnant should not use this remedy, as it is sure to bring on miscarriage, though no injury to health would follow. One box \$1, three boxes \$2. All letters of inquiry must contain a postage stamp to ensure an answer.

TO KANSAS EMIGRANTS.

THE ATCHISON STEAM FERRY

Is now in full operation. Having received our new and commodious boat, we are fully prepared to cross Wagons, Horses, Cattie, Footmen, &c., at any time without delay.

Atchison being situated in Kansas on the great western bend of the Missouri River opposite Bloomington, Buchanan County, Mo., is the best crossing, the nearest and most convenient point to all the Territory north of the Kansas river. Persons going to the southern part of the Territory, will also find it the best place to cross the Missouri.

The country surrounding cannot be surpassed, and the outlet and roads leading to and from Atchison to any point of the Territory, are better and nearer than from any other point. It is due west of Hannibal, on the parallel line running through the center of Kansas, hordering on the Missouri River, and is the most adjacent point to the fertile country on the Stranger, Grass-hopper, Vermillion, Big Blue, and Kansas River. It is the best starting point for all emigrants to California, Oregon, and Salt Lake; the great government road from Fort Leavenworth running only four miles west of the town.

The Boat being new, and built after the most approved model, capable of carrying 150 head of cattle at a crossing, together with our determination to give it strict attention, persons madepend on being accommodated at all times.

DRY-GOODS & GROCERIES

Forwarding and Commission Merchants ATCHISON, KANSAS TER.

I HAVE just returned from Philadelphia, New York and Baltimore, where Tpurchased and am new receiving a large and well selected Stock of Fancy and Staple Dry Goods, consisting in part of Ladies Dress Goods, New Style Calicoes, Brown and Bleached Cotton, Men and Boys Wear, Colored and Striped Cottons, Cottonades, New Style Lawns, together with everything else in the Dry Goods Line, including a large assortment of Incian Goods, Ready Made Clothing, Hats, Bonnets, Boots, Shoes, Hardware, Queensware, Stationery, Notions, Groceries, &c., &c., &c.

All of which have been bought at the very lowest Cash rates, and bought to sell in the same way without reserve. I have also a large Stock of Flour. Bacon, Doors, Sash, Iron, Nails and Casting. MY TERMS ARE CASH OR PRODUCE EXCLUSIVELY, to one and all, without exception.

I defy all competition in the prices of Goods, and am fully prepared and determined to sell lower than ever before, and convince all, that in my Store in Atchison, on the Levee, they can get more for their money than in any other House west of St. Louis. I invite all to give me a call and see for themselves the truth of what I have said. CALL AND EXAMINE.

Apr 27-1y OCEINA.

Kansas Territory. THE truth plainly told will show beyond a doubt that OCENA is already a city.—
The surface of the earth was so moulded by the plastic hand of the Creator that a few points in the wide expanse of Nature were destined to eclipse all others. Ocena is one of these points. Located as it is, on the north-east bank of the Stranger Creek, in the county of Atchison, where roads leading from Douiphan and St. Joseph to Lecompton are intersected by roads leading from Archison to Grasshopper Falls and Osawkie; and also being upon the great thoroughfare running up and down the valley of the Stranger; it offers more inductments for a large and prosperous infand town than any other place in Kansas Territory. All persons anxious to thrive, and desirous of eluming a home on reasonable terms will de well to settle in Ocena. For further particulars is reference to the town apply to ISAAC S. HASCALL President, or M. C. FINNEY, Secretary.
